

## Backend - When a campaign ends

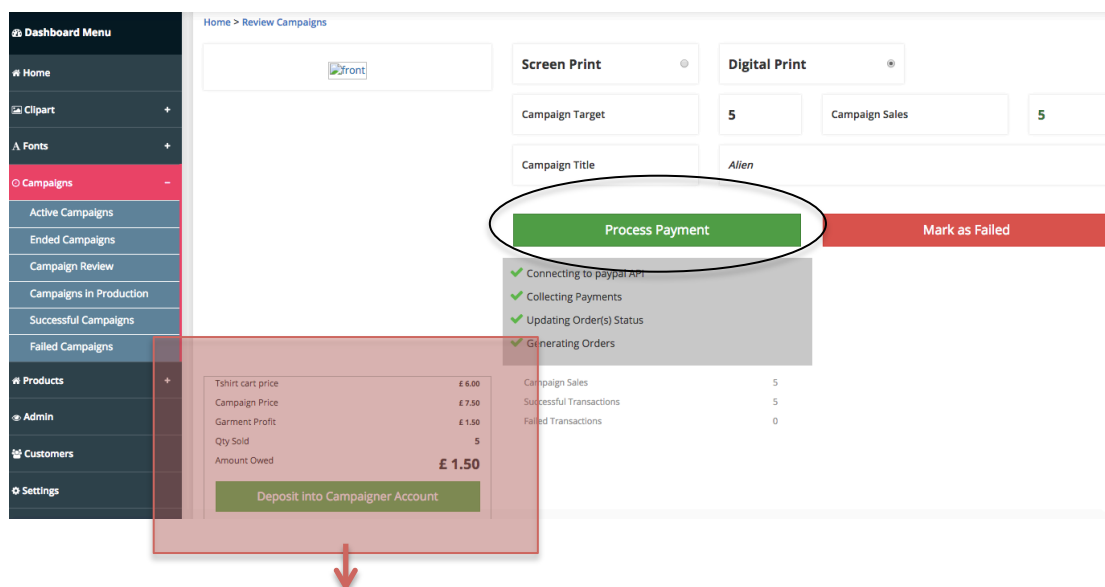

- Select campaign and click on 'Add to campaign review'

- Click on the first 'View' button on a campaign

**This is not conditional on whether the campaigner has requested payment**

- Remove 'Deposit into Campaigner Account' section from this page.
- When clicking on 'Process Payment', this will collect all of the money from the customers.
- Also when 'Process Payment' is clicked, an e-mail is sent to the campaigner stating that their funds are available to request. This is calculated from the profit from the actual funds collected, NOT sales.
- **'Mark as failed' button doesn't need to be on this page, please remove.**
